**NEW DITHIOPYR 40 WSB HERBICIDE FROM QUALI-PRO®
PROVIDES NEW CHOICES FOR CRABGRASS CONTROL**

Raleigh, NC – April, 2007 — Quali-Pro® has received registration for Dithiopyr 40 WSB broad spectrum herbicide from the U.S. Environmental Protection Agency (EPA). Dithiopyr 40 WSB provides proven early postemergence control of crabgrass and preemergence control of more than 40 other broadleaf and grass weeds including season-long control of crabgrass, goosegrass, foxtail, spurge, and *Poa annu.* in established lawns, golf courses, field-grown nurseries and landscape ornamentals, commercial sod farms, non-cropland and industrial sites.

"The addition of Dithiopyr 40 WSB to the expansive product portfolio from Quali-Pro offers professionals a choice for broad spectrum preemergence and early postemergence weed control. It's easy on turf and with nearly two hundred ornamental plants labeled for use, Dithiopyr is ideal for a variety of landscape and nursery applications," states Russ Mitchell, Quali-Pro Product Manager. "And Quali-Pro Dithiopyr 40 WSB features the popular non-staining formulation, so you don't have to worry about leaving any tell-tale signs on turf, equipment, buildings or walkways."

Compatible with liquid fertilizers and other products, Dithiopyr 40 WSB can be tank-mixed for additional application flexibility. Its low odor, water soluble formulation makes mixing simple and its low use rates offer convenience and economy.

Quali-Pro offers full-service selection of fungicides, herbicides, insecticides and plant growth regulators with proven performance in commercial ornamental and turf markets, all backed by the strength of Makhteshim-Agan Industries, the world's leading manufacturer and distributor of post-patent agrochemicals.
